Carton	24 pieces

DESCRIPTION

The Elwood 410 ml insulated mug is a practical tumbler for travel or the office, made from stainless steel with a double-wall construction to keep hot or cold drinks at temperature. The stainless steel and plastic combination gives the mug strength and corrosion resistance, and it is easy to clean by hand. It is available in several colourways, for example blue, black and red.

The model features a sliding lid for sipping without removing the cover, and plastic trims at the rim and base that improve grip and protect against knocks. Its tapered shape fits most car cup holders and provides a comfortable hold.

This personalised mug can be personalised from one piece and accepts tampography on object, screen printing on object or digital printing on object. We serve companies, sports clubs, associations, events and private customers and offer an in-house studio to retouch or vectorise your logo. Free quote within 24 hours on weekdays, collection at our Evere workshop or delivery in Belgium, France and Luxembourg.
