DESCRIPTION

The Duke insulated bottle 500 ml is a stainless steel double-wall vacuum bottle with a copper-plated inner wall. With a 500 ml capacity it suits commutes, office use or events; unisex and easy to carry in a bag. The stainless construction is robust and simple to maintain—hand rinse and dry. It comes presented in an Avenue gift box, convenient for corporate gifting.

The screw-top provides a secure, leak-resistant closure and the steel finish gives a professional look. The copper-plated interior improves thermal performance: hot drinks up to 12 hours and cold drinks up to 48 hours. Available in several colours (e.g. silver) depending on stock.

This personalised insulated bottle can be customised from one piece and is ideal for businesses, clubs, associations, schools or individuals seeking a practical, durable branded item. We offer tampography, screen printing and digital printing on objects for logo application; our design studio can edit or vectorise your artwork. Collection in Evere or delivery in Belgium, France and Luxembourg.
