Reference	100469
Composition	Stainless steel
Material	Stainless steel
Average weight	330
Dimensions	21 x Ø 9,1 cm
Country of origin	Chine
Carton	24 pieces

DESCRIPTION

This unisex stainless steel travel mug holds 500 ml and offers reliable thermal performance thanks to its double-wall construction with copper vacuum insulation: keeps hot drinks for up to 8 hours and cold drinks for up to 24 hours. The lid is leakproof for transport and the mug comes in an Avenue gift box. Its smooth finish and upright profile make it practical for commuting and office use; hand washing is recommended to preserve the seal and insulation.

The straight cylindrical shape ensures a secure grip and a reduced drinking aperture to limit spills while on the move. The design prevents external condensation, protecting hands and surfaces. Available in several colourways, for example Chrome and Black.

This personalised mug can be customised from one piece and suits businesses, sports clubs, associations, events and individuals. Customisation techniques offered: pad printing on object, screen printing on object and digital printing on object. Free quote within 24 hours on weekdays and in-house graphic studio for logo vectorisation and retouching.
