Country of origin	Chine
Carton	40 pieces

DESCRIPTION

The Sky 650 ml water bottle is a lightweight, impact-resistant sport bottle designed for everyday use. Made from Eastman Tritan™ and BPA-free, it has a single wall and 650 ml capacity that fits most backpack side pockets and car cup holders. The screw lid opens and closes easily and features an integrated carry handle. It comes in several colour options such as black/translucent, blue/translucent or red/translucent.

The straight-sided shape and built-in loop make it easy to grip and transport. The durable plastic stands up to daily knocks; cleaning with soapy water is sufficient. There is no insulation layer or complex closure—this is a practical bottle intended for mobility and casual sports use.

The Sky bottle can be personalised from one piece and is suitable for companies, sports clubs, associations, schools and promotional events. We offer personalisation by tampography on object, screen printing on object or digital printing on object, depending on print area and finish required. Free quote within 24 hours on weekdays; collection at our Evere workshop or delivery in Belgium, France and Luxembourg.
