DESCRIPTION

The Bouteille isotherme Atlantic 530ml custom / personalised with logo is an excellent choice for outdoor use thanks to its stainless steel construction and double-wall vacuum insulation. The screw lid with a carabiner makes it simple to attach to a backpack (the carabiner is not suitable for climbing). The vacuum insulation keeps hot and cold drinks at temperature for extended periods. It is easy to care for: hand rinse and clean, avoiding abrasive cleaners to preserve the finish and insulating properties.

You can personalise this insulated bottle using tampography, laser engraving, digital printing or object screen printing. Ideal for companies, sports clubs, associations, events and private individuals who want a custom bottle with logo for gifting or branding.
