Country of origin	Chine
Carton	48 pieces

DESCRIPTION

The Alps insulated mug 200 ml is a compact, durable companion for outdoor activities such as camping, hiking or trekking. Made from stainless steel with a double wall, it keeps hot drinks warmer than a standard mug and is easy to clean. Its small capacity makes it convenient for short breaks and everyday on-the-go use.

A functional detail: the handle is a carabiner, so the mug can be clipped to a backpack for hands-free transport. The stainless finish and simple shape provide durability; routine cleaning is straightforward and avoiding aggressive cleaners will help maintain the metal finish.

This insulated mug can be personalised by tampography, screen printing or digital printing on the object. Available in several colours (for example Black, Blue or Silver) and customisable as personalised mug from 1 piece, it suits companies, sports clubs, associations, events and private customers.
