Country of origin	Chine
Carton	300 pieces

DESCRIPTION

The Fris sleeve in recycled neoprene for bottles is made to insulate and protect your drink while remaining compact — it folds easily to fit in a pocket or bag. The recycled neoprene provides a comfortable grip and helps keep the beverage cooler for longer. Designed to fit 500–600 ml bottles, it is simple to care for by hand to maintain its shape and insulating properties. This custom / personalised sleeve with logo is a practical accessory for outdoor activities and everyday transport.

We can personalise the sleeve using object screen printing, multicolour transfer or DTF printing to suit your needs. Ideal for companies, sports clubs, associations, events or individuals looking for personalised gifts. Our design studio can retouch or vectorise your logo and the marking is itemised in the quote, with no minimum order quantity.
