DESCRIPTION

The rectangular multi-use Cirqula bowl, 1,500 ml, is ideal for storing, transporting and serving large portions of soup, meat or salads. Made from PP plastic with TPE elements, it can be kept in the fridge or freezer, reheated in the microwave (lid removed) and cleaned in the dishwasher. The transparent window in the lid ensures clear visibility of contents, while the flexible, airtight lid prevents leaks and helps keep food fresher for longer. It is BPA-free and rated up to 110 °C.

We offer to produce a custom / personalised rectangular multi-use bowl with logo using laser engraving, tampography or object screen printing. Suitable for companies, sports clubs, associations, schools, events and private customers who want a practical, branded container for takeaway meals, catering or everyday use.
