DESCRIPTION

The Pheebs drawcord backpack combines recycled cotton and recycled polyester (150 g/m²) for a lightweight, flexible carry solution. It features a large main compartment secured by a natural-coloured cotton drawcord and a 14 cm handle for easy grab-and-go use. The backpack has a maximum load capacity of 5 kg. Slight colour variations may occur due to the recycled fibres, giving each item an authentic look. An Aware™ tracer with a QR code lets users trace the item's origin and production journey for greater transparency.

As a custom backpack with logo, personalisation options include embroidery, DTF printing, object screen printing and multicolour transfers. Suitable for companies, sports clubs, associations, events and individuals. Free weekday quotes and a graphic studio are available to rework or vectorise your logo.
