## DESCRIPTION

The Trace recycled shopping bag is made for everyday use — from the library to grocery runs and short city trips. Its simple cut and short yet sturdy handles make it comfortable to carry for extended use. Constructed from 70% recycled cotton and 30% recycled polyester (500 g/m²), the bag uses Cyclo® technology which incorporates pre-sorted waste fibres that influence the yarn colour, and an Aware™ tracker with a QR code lets users trace the product's origin. The result is a robust, practical bag that highlights recycled materials.

This custom / personalised shopping bag with logo can be decorated using object screen printing or embroidery, depending on the finish you want. Suited to companies, sports clubs, associations, events and individuals, it showcases your logo or message on an eco-responsible medium. Our design studio can prepare and optimise your artwork for a clean, professional result.
