DESCRIPTION

The Trace recycled crossbody bag is made from 70% recycled cotton and 30% recycled polyester, suited for everyday urban use. It features a secure zippered main compartment and an adjustable strap for comfortable wear. Cyclo® technology uses pre-sorted waste in the yarn, giving each piece a unique shade, and the Aware™ tracer with QR code lets users trace the origin and journey of the item. Easy to care for, this bag blends style and circularity for a responsible accessory.

We offer embroidery to create a custom / personalised crossbody bag with logo, ideal for precise logos and monograms. Perfect for businesses, sports clubs, associations, schools, events and private customers, the finish is durable and refined. Our studio can vectorise or retouch your logo on request.
