| **Carton** | 200 pieces |

## DESCRIPTION

The 5-in-1 Pure charging cable is a versatile phone and laptop accessory featuring five connectors (Type-C input, USB-A input, Type-C output, iOS output and micro USB output) and a 100 cm length. Made from PVC and ABS plastic, it charges and syncs a wide range of modern devices, including Type-C outputs found on the latest phones and some MacBooks. An antibacterial additive incorporated into the material effectively reduces surface bacteria and fungi, tested to ISO 20743:2013; surface cleaning is simple with a wipe-down.

To customise this custom / personalised 5-in-1 Pure charging cable with logo, we offer tampography and digital printing, both well suited to PVC/ABS surfaces for logos and text. Perfect for companies, sports clubs, associations, events and private individuals looking for a practical, hygienic promotional or gift item. A free quote and in-house graphic studio can help prepare your artwork.
