DESCRIPTION

The USB-C PD Next Gen 100 W Xtorm CX3071 cable is built to safely charge smartphones, tablets and USB-C laptops. Its 1.5 m length and braided nylon construction with reinforced connectors deliver durability and flexibility for daily use and travel. An integrated strap keeps the cable neatly coiled for easy transport. Care is straightforward: wipe with a damp cloth and avoid sharp bends to maintain the cable and connectors.

Offer a custom USB-C cable with logo using laser engraving on plastic or metal parts. Perfect for companies, sports clubs, associations, events and private customers who want a practical, branded accessory — add a logo, name or contact details for lasting visibility.
