## DESCRIPTION

The Avior emergency radio, made from recycled ABS plastic, is a compact, reliable companion for outdoor use and emergency kits. It features AM/FM radio, a solar panel, a built-in 1 W torch, USB output, USB-C input, a 1,200 mAh battery and a hand-crank generator for backup power. A short crank gives a few minutes of operation, while a full charge provides many hours of radio play or torch use. Lightweight and sturdy, the unit is easy to carry and can be cleaned with a damp cloth.

Offer a custom / personalised radio with logo using digital printing, pad printing (tampography) or doming — techniques suited to this plastic item. Ideal for companies, sports clubs, associations, events and private customers. No minimum order (from 1 piece), free quote within 24 hours on weekdays and an in-house graphic studio to vectorise or refine your logo. Collection at our Evere workshop or delivery in Belgium, France and Luxembourg.
