## DESCRIPTION

The SKROSS® Slim 30 W wall charger for Europe is an ultra-slim plastic charger designed to sit discreetly in tight spaces, even when furniture is close to the wall. Its design routes cables upwards for a neater layout. Compatible with European sockets across many destinations, it features Power Delivery (PD) for efficient charging via one USB-C and one USB-A port. GaN technology provides strong performance in a compact format, making it suitable for travel and everyday use. Care is straightforward: wipe with a soft cloth.

We offer a custom / personalised wall charger with logo for businesses, sports clubs, associations, events and private customers. Customisation can be done using pad printing (tampography), screen printing (sérigraphie) and digital printing on objects; screen-print transfers can also be applied. No minimum order (from 1 piece); free quote within 24 hours on weekdays. Standard production and express options depending on stock; collection at our Evere workshop or delivery in Belgium, France and Luxembourg. Graphic studio available to retouch or vectorise your logo.

## COLOURS (1)

White

**Your logo on this item?**

Embroidered or printed in our Evere workshop, from a single piece. Request your free quote within 24 hours.
