DESCRIPTION

The Rove recycled keyring is a practical, compact tool for any driver: it allows quick checking of tyre tread depth to ensure compliance with legal limits. Made from recycled ABS plastic, it provides a secure grip and is easy to maintain — simply wipe with a damp cloth. Its compact design fits neatly on a keychain, in a bag or glove compartment, offering a convenient way to keep safety checks at hand during journeys.

Have this custom / personalised keyring with logo printed using pad printing or screen printing on objects to add a logo or message. Perfect for companies, garages, car clubs, associations, promotional events and individuals who value safety and brand presence.
