DESCRIPTION

The Brace phone stand with handle is made from ABS plastic and functions as both a stand and a secure grip for a smartphone. The adhesive backing attaches firmly to the rear of the device, making it great for watching films or stabilising the phone for selfies. Lightweight and unobtrusive, it improves handling without affecting everyday use. For care, wipe with a soft cloth to preserve the adhesive and the appearance of the plastic.

This custom / personalised phone stand with logo can be decorated by tampography, doming and digital printing. Ideal for businesses, sports clubs, associations, events or individuals who want a useful, branded item. Our studio can refine or vectorise logos to ensure optimal printing, and we provide free quotes.
