DESCRIPTION

The Artic soft trolley in RPET (51x33x23cm) is designed for business and organisational travel. Its rectangular shape maximises packing capacity and a double-tube frame with a telescopic handle makes manoeuvring straightforward. Inside there are two large zipped compartments for neat organisation and a front zip pocket for quick access to documents or accessories. The RPET fabric provides a flexible yet durable finish and is easy to clean with a damp cloth.

The trolley features two wheels and both a top and side handle for versatile carrying. The main closure is by zip and an integrated combination lock improves security. Visible stitching and finishing details indicate a construction built for regular use.

This personalised trolley can be customised for companies, sports clubs, associations, events and individuals. Marking options: flex, screen printing on items, multicolour transfer and DTF printing. Minimum order quantity: 2 pieces (colours and sizes combined).
