DESCRIPTION

The Bright Rollpack roll-top backpack is built for daily commuting and travel, measuring 26x66x13 cm. Constructed from PET with a reinforced base in recycled polyester 600D, it accommodates a 15" laptop in an inner pocket secured by a hook-and-loop fastener. The back panel, shoulder straps and base are padded for comfort during prolonged wear, and a zipped front pocket offers easy access to smaller items. The roll-top closure provides adjustable volume and protection; care is limited to surface cleaning as needed.

Design details focus on durability and practicality: visible seams, a central strap with buckle to secure the roll-top and an abrasion-resistant bottom. The proportions keep the pack compact while allowing space for folders and accessories, making it suitable for urban commutes and outdoor events.

Customisation is available by screen printing on objects — personalised backpack ideal for companies, sports clubs, associations, events and private customers. Minimum order quantity: 13 pieces (colours and sizes combined). Our graphic studio can retouch or vectorise your logo for printing.
