Reference	2058
Composition	Recycled Cotton
Material	Recycled Cotton
Average weight	0.4
Dimensions	100 x 170 CM
Country of origin	Spain
Carton	40 pieces

DESCRIPTION

The Wave beach towel is made from recycled cotton and SEAQUAL® recycled polyester and measures 100 x 170 cm, providing ample coverage for beach days or spa use. Its flat cut with fringed ends gives a relaxed look, while the woven texture ensures good absorbency and soft comfort; the SEAQUAL® yarn supports ocean clean-up initiatives by using recovered marine waste.

Available in several colours including blue, grey and turquoise, the towel rolls up neatly for transport and storage. Care is straightforward: wash according to recycled-cotton instructions and air-dry where possible to preserve the fabric's appearance and weave.

This personalised beach towel can be decorated by embroidery, screen printing, multicolour transfer, DTF printing or flex depending on the finish you need. Suitable for companies, sports clubs, associations, events and private customers. Minimum order: 20 pieces (colours and sizes combined).
