Country of origin	China
Carton	200 pieces

DESCRIPTION

Unisex touchscreen sports gloves, model Lesport, made from PET and designed for smartphone use. They offer a close fit with PVC fingers — two of which have a touchscreen function — and a palm patterned with non-slip dots for improved grip. Compact dimensions (14.5 x 23 cm) and an elasticated cuff help keep the gloves in place; care is straightforward for synthetic materials.

Construction details include neat finger seams and a smooth surface that ensures comfortable wear during activity. The item is offered in 1 colour, for example black, and is available in the sizes and colour options listed on the product sheet.

These gloves are ideal for personalisation for companies, sports clubs, associations, events and individuals. Customisation techniques: screen printing on objects, multicolour transfer, DTF printing and flex. Minimum order: 100 pieces (colours and sizes combined). Our studio can vectorise your logo; free quote within 24 hours on weekdays and collection from our Evere workshop or delivery in Belgium, France and Luxembourg. personalised gloves
