DESCRIPTION

Ergonomic single-wall sports bottle with a 650 ml capacity, made from recycled plastic collected through the Prevented Ocean Plastic initiative. The body comprises PCR plastic, PP, SAN and PE and may show minor marks typical of recycled materials. It features a spill-resistant flip spout lid, comes in mix-and-match colours and is packed in a recycled PE bag. Practical for on-the-go use and reflecting a circular approach, this custom / personalised sports bottle with logo is both functional and conscientious.

Brand the bottle using digital printing or object screen printing to add a logo, design or message. Ideal for companies, sports clubs, associations, events and private customers seeking a useful, identifiable promotional item. Our studio can also retouch or vectorise logos where required.
