Country of origin	China
Carton	40 pieces

DESCRIPTION

Double-wall insulated drinking mug in stainless steel with a 330 ml capacity, designed to keep hot or cold drinks at the right temperature while on the move. Its slim profile (Ø6.5 x 16.5 cm) and flip lid reduce spills and make it comfortable to hold. The stainless steel interior is hygienic and easy to clean with soapy water. The model is available in several colour options, for example black, silver and blue, suitable for everyday use at the office, commuting or events.

The low-profile lid features a hinged drinking opening that can be partially locked to limit leaks; the rounded base enhances handling. The matte finish gives a uniform, professional appearance and the compact dimensions fit most car cup holders and bags.

Personalise this personalised mug using digital printing, laser engraving, screen printing on objects or pad printing. Recommended for companies, sports clubs, associations, events and as corporate gifts for individuals. Minimum order: 20 pieces (colours and sizes combined) — smaller quantities possible with additional fees; free quote within 24 hours on weekdays.
