Ref. 2124

Reference	2124
Composition	ABS
Material	ABS
Average weight	0.384
Dimensions	Ø12 x 32 CM
Country of origin	China
Carton	24 pieces

DESCRIPTION

Desk lamp in ABS with an integrated wireless charger and a wireless 5.1 speaker, designed for use on desks or bedside tables. The flexible neck and compact shade provide directional lighting with three colour temperatures (day, cool and natural) operated by a touch control. Size: Ø12 x 32 cm; the base features a visible cork pad as shown in the photo, convenient for resting a phone while charging.

The ABS finish gives a smooth, easy-care surface. Brightness is adjusted by touch; the output (DC5V/1A) supports device charging. This lamp combines light and sound in a compact format that fits neatly on a workspace.

These personalised wireless chargers can be customised by laser engraving or pad printing. Minimum order: 12 pieces (colours and sizes combined) — smaller quantities may be possible with additional fees. Suited to companies, sports clubs, associations and events; our design studio can retouch or vectorise your logo and we provide a free quote within 24 hours on weekdays.
