DESCRIPTION

The Florina ballpoint is a writing instrument with a recycled aluminium body, intended for professional and promotional use. Its slim proportions (Ø1 x 13.9 cm) provide a balanced grip for everyday writing and it comes with blue ink. A built-in stylus at the top allows interaction with touchscreens, making it useful at meetings, trade shows and customer points. The model is available in several colours, for example black, blue or white.

The metal finish features chrome detailing on the tip and clip, plus decorative rings near the lower end for a neat appearance. The clip secures the pen to pockets or notebooks, and the overall feel is lightweight yet sturdy for regular handling.

The Florina can be customised by laser engraving or pad printing. It is suitable for companies, events, clubs and associations seeking a durable branded pen; please note a minimum order of 250 pieces (colours and sizes combined). We handle marking and production with delivery across Belgium, France and Luxembourg or collection from our Evere workshop.
