Carton	50 pieces

DESCRIPTION

The Gama wireless speaker is a compact, cylindrical unit (Ø5.9 x 5.2 cm) with a recycled PU casing. With a 3W output and around 3 hours of playtime, it is suited to mobile, short-term listening. A discreet LED indicator and a protective mesh over the driver keep the design functional and easy to handle.

Its small footprint makes this speaker easy to carry and store. The recycled PU finish gives a consistent feel and is appropriate for promotional use at events. Controls and the LED are integrated into the housing for straightforward operation.

This personalised speaker can be marked by screen printing, laser engraving, tampography or doming. Ideal for companies, sports clubs, associations, events and private customers. Minimum order: 25 pieces (colours and sizes combined) — lower quantities may be possible with additional fees. Free quote within 24 hours on weekdays; our studio can retouch or vectorise your logo. Collection at our Evere workshop or delivery in Belgium, France and Luxembourg.
