Average weight	0.045
Dimensions	22 x 18 x 0,17 CM
Country of origin	China
Carton	200 pieces

DESCRIPTION

The Beta mouse pad is designed as a practical desk accessory made from RPET-PU with 58% recycled content (40% recycled polyester and 18% recycled PU). At 22 x 18 x 0.17 cm it provides a compact, stable surface for daily office use. The textured finish improves mouse tracking and the rounded corners reduce edge wear, while the slim profile keeps the pad unobtrusive on any workspace.

The construction is low-profile and easy to store, offering a leather-like feel without new synthetic bulk thanks to the recycled materials. Its textured surface enhances cursor control and comfort during extended work sessions, making it suitable for office desks, reception areas and exhibition stands.

Order this personalised mouse pad with screen printing on object, laser engraving or embossing to match your branding. Minimum order: 100 pieces (colours and sizes combined). Ideal for companies, clubs, associations, events and corporate gifts — free quote within 24 hours on weekdays and our studio can prepare or vectorise your logo.
