Reference	2175
Composition	RPET-PU
Material	RPET-PU
Average weight	0.08
Dimensions	Ø10 x 0,6 CM
Country of origin	China
Carton	100 pieces

DESCRIPTION

The Alfa wireless charger is made from RPET-PU with 58% recycled content (40% recycled polyester and 18% recycled PU) and provides DC 9V/1.67A (15W) output for fast charging compatible devices. Its slim, round profile (Ø10 x 0.6 cm) features a textile-like surface and stitched edge, plus a small indicator LED for charging status. Care is straightforward — wipe with a damp cloth.

The low-profile design keeps devices steady while charging and the stitched rim reduces slipping. The power connector is positioned to one side for neat cable management. Compact and practical, it suits daily office use, reception desks or as a promotional giveaway.

Customize this personalised wireless charger using screen printing, laser engraving, pad printing or embossing. Minimum order: 50 pieces (colours and sizes combined). Recommended for companies, clubs, associations and events. Free quote within 24 hours on weekdays; standard production 10 working days, express 24 h for items in stock; collection at our Evere workshop or delivery in Belgium, France and Luxembourg. Our graphic studio can retouch or vectorise your logo.
