Country of origin	China
Carton	25 pieces

DESCRIPTION

The Scubaroll backpack is a roll-top sport and outdoor bag made from RPET (recycled polyester), with a 25 L capacity and measurements of 37x55 cm. Its roll-top closure provides effective protection against moisture, and the bag features a reinforced top handle and adjustable side cords. The straight, practical cut suits daily commuting as well as outdoor activities, and the textured finish helps with easy maintenance.

Notable details include a front pocket with a waterproof zip, a robust construction with minimal vulnerable seams on the main panels, and side buckles to secure the rolled closure. The bag is lightweight yet stable when loaded, and handling is simple thanks to the ergonomic handle and adjustable straps for comfortable carrying.

Personalised orders start from 13 pieces (colours and sizes combined). Available marking techniques: screen printing on object, multicolour transfer, DTF printing and flex. Suitable for companies, sports clubs, associations, events and individuals seeking a personalised backpack. Free quote within 24 hours on weekdays; lower quantities possible with additional fees.
