Average weight	0.073
Dimensions	Ø9,1 x 0,9 CM
Country of origin	China
Carton	100 pieces

DESCRIPTION

The Acawai wireless charger combines an acacia wood rim with a 58% recycled PU charging surface and is designed to charge a smartphone by placing it on top. Its slim, circular format (Ø9.1 x 0.9 cm) connects via a USB cable to a computer or suitable adapter. The wooden construction gives a natural look and reliable everyday handling; clean the surface with a damp cloth. This charger is available in 1 colour (black).

The product features a low-profile disc with an integrated power cable and a central non-slip pad to keep the phone steady while charging. Output: DC 9V/1.67A (15W), suitable for office desks, reception areas or promotional gifting.

Personalisation options include pad printing, screen printing on objects and laser engraving. Ideal for businesses, sports clubs, associations, events and private clients seeking a personalised wireless charger. Minimum order: 50 pieces (colours and sizes combined) — smaller quantities may be possible with additional fees. Free quote within 24 hours on weekdays; standard production and collection from our Evere workshop or delivery in Belgium, France and Luxembourg.
