Dimensions	5,5 x 2,95 x 0,8CM
Country of origin	China
Carton	300 pieces

DESCRIPTION

The Stanrin phone keyring is a compact metal accessory (5.5 x 2.95 x 0.8 cm) that secures keys while doubling as a practical phone stand. A brushed central plate set within a polished frame provides a stable, rigid surface and a refined feel. Low maintenance — a quick wipe keeps the metal finish presentable.

The piece features an integrated fold-out support that holds a phone in landscape orientation for watching videos or hands-free calls. Clean edges and a classic round split ring ensure reliable key retention; the metal construction resists everyday wear and is easy to clean.

Customisable from a minimum order of 150 pieces, this personalised keyring can be marked by laser engraving, pad printing, digital printing and doming. Well suited to companies, events, clubs, associations and promotional gifting; free quote in 24 hours on weekdays and options for collection at our Evere workshop or delivery in BE/FR/LU.
