Country of origin	China
Carton	20 pieces

DESCRIPTION

The Nomu double-walled cup is made of stainless steel on the outside with a PP interior, offering a practical 300 ml capacity in a compact Ø8.5 x 12 cm format. Its cork base reduces heat transfer to surfaces and provides a steady grip. The cup features a matte finish and a clear plastic lid with a sliding drinking aperture; it is leak-resistant in normal use.

Available in several colours such as black, matt silver and white. The cork base gives a natural look and helps protect tabletops, while the slight taper of the body improves handling. For longevity we recommend hand washing to preserve the cork base and exterior finish.

Customisation options include laser engraving, screen printing on objects and pad printing — suitable for companies, sports clubs, associations, events and private customers. Minimum order: 10 pieces (colours and sizes combined). Our graphic studio can retouch or vectorise your logo prior to production. personalised cup.
