Average weight	0.367
Dimensions	Ø6,7 x 17,1 CM
Country of origin	China
Carton	30 pieces

DESCRIPTION

Compact cylindrical speaker in ABS, measuring Ø6.7 x 17.1 cm, designed for portability and easy handling. The visible mesh fabric around the speaker protects the drivers while allowing sound to pass; the plastic base houses the physical controls and AUX, USB and TF ports. Fitted with a 1200 mAh rechargeable battery providing around 5 hours playback, it’s suitable for mobile use (offices, booths, small events) and includes a carrying loop for transport.

Functional details include prominent plus/minus volume controls and lower-mounted buttons, plus a smooth area ideal for branding. The upright profile makes it simple to place on counters or tables. Maintenance is straightforward: wipe the plastic and fabric surfaces with a damp cloth and avoid harsh solvents.

Personalisation available from 15 units: personalised speaker for companies, clubs, associations, events and private customers. Available techniques: laser engraving, digital printing, doming. Free quote within 24 hours on weekdays and an in-house design studio can vectorise your logo.
