DESCRIPTION

Compact terracotta gardening pot (6 x 5.5 x 5 cm) designed for growing herbs such as mint. Its tapered shape with a defined rim makes handling and repotting straightforward, while the terracotta material promotes root aeration. Supplied with a substrate tablet for easy sowing, it suits indoor use or balcony displays. Care is simple: water moderately and ensure adequate drainage.

Its small size keeps it stable on shelves or tables and makes it suitable for inclusion in gift packs or promotional kits. Manufactured in the EU with a discreet, durable finish for everyday use. The compact dimensions are practical for event giveaways or client promotions.

We can personalise this pot using laser engraving, pad printing and digital printing. Well suited to companies, clubs, associations and events looking for a personalised pot or branded giveaway.
