Average weight	0.088
Dimensions	11.5 x 8CM
Country of origin	China
Carton	60 pieces

DESCRIPTION

The Caribu mug is made from recycled stainless steel and is a single-wall vessel with a 300 ml capacity and overall dimensions of 11.5 x 8 cm, designed for everyday use. It features a matte textured exterior, a practical handle and a rolled metal rim that helps with grip and makes rinsing straightforward. The material is specified as recycled stainless steel.

The single-wall construction keeps the mug lightweight and compact, suitable for coffee breaks and outdoor activities. The exterior finish appears durable against minor scuffs while the polished stainless interior facilitates cleaning. Note that this mug does not provide thermal insulation like double-wall or vacuum options.

The Caribu can be personalised by laser engraving, screen printing and pad printing and is ideal for businesses, clubs, associations, events and private customers. Minimum order: 30 pieces (colours and sizes combined). Our studio can retouch or vectorise your logo prior to marking.
