Average weight	0.367
Dimensions	61 x 14 x 4CM
Country of origin	China
Carton	30 pieces

DESCRIPTION

Foldable Carshade car sunshade made from PET with a 2 mm foam inner layer and an aluminium PE foil interior. It features a central cut-out for the rear-view mirror and elastic straps to keep it folded. Dimensions: 61 x 14 x 4 cm. Easy to place behind the windscreen, it helps reduce heat buildup inside the vehicle.

The outer face shows vertical padded panels, a reinforced edging and suction cups for quick mounting on the windscreen. The materials allow simple cleaning with a damp cloth and the stitched edging maintains the unit’s shape and durability, as visible in the photo.

This sunshade can be personalised by screen printing for companies, sports clubs, associations, events or private customers. Minimum order: 15 pieces (colours and sizes combined); smaller quantities are possible with additional fees. Our graphic studio can refine or vectorise your logo. Collection at our Evere workshop or delivery in Belgium, France and Luxembourg. personalised car sunshade
