Country of origin	China
Carton	40 pieces

DESCRIPTION

The Ives double-walled bottle is made from recycled stainless steel with a 500 ml capacity and vacuum insulation to keep drinks at their temperature. Its slender profile (Ø7 x 24 cm) and cork base provide stability on surfaces, while the metal screw cap with a carry handle makes it easy to transport. Suitable for daily use at the office, on the move or at events, it should be cleaned following manufacturer guidance to maintain insulation and finish.

The leak-proof design and cork foot protect surfaces and reduce slipping. Visible details include a robust metal cap with a secure loop and a smooth, seamless body that ensures a comfortable grip and straightforward maintenance.

This bottle can be personalised from 13 pieces. We offer DTF printing, laser engraving, object screen printing and pad printing to apply your branding. Ideal for companies, clubs, associations, events and private customers seeking personalised bottles. Free quote within 24 hours on weekdays and an in-house design studio is available to vectorise your logo.
