Ref. 2272

Reference	2272
Composition	Glass
Material	Glass
Average weight	0.34
Dimensions	Ø3,6 x 28CM
Country of origin	China
Carton	30 pieces

DESCRIPTION

Galileo glass thermometer, Ø3.6 x 28 cm, formed as a vertical glass tube containing five coloured floating bulbs and a tapered top. Each bulb is fitted with a small metal tag indicating a temperature band (18 °C to 26 °C); the lowest bulb of the upper group shows the ambient temperature. The cylinder sits on a compact square base, providing stability on a desk or shelf.

The clear glass finish is decorative and can be wiped clean with a soft cloth; avoid strong impacts to protect the internal bulbs. This piece serves as both an ornamental object and a simple ambient thermometer suitable for offices, meeting rooms and reception areas.

Customisation available by laser engraving, pad printing (tampography) or digital printing to add a logo or message. A practical choice for companies, clubs, associations and events. Not available per piece: minimum order 15 units (colours and sizes combined).

COLOURS (1)

Transparent
