Reference	2277
Composition	ABS
Material	ABS
Average weight	0.018
Dimensions	5,4 x 3 x 0,6 CM
Country of origin	China
Carton	200 pieces

DESCRIPTION

This smart tracker is made from ABS and measures 5.4 x 3 x 0.6 cm, making it compact enough to attach to a keyring via its loop and braided cord. Compatible with the Apple Find My network, it lets you locate personal items using iOS devices. The rectangular shape with rounded corners and a single round button on the face provide straightforward operation; the ABS construction gives a smooth finish and practical durability. The item comes in several colours, for example white or black.

The unit features a metal key ring and a braided strap for easy attachment to keys or bags. Visible details are functional: one front button and a reinforced eyelet for the ring. It is easy to clean with a damp cloth.

Customisation available by digital printing, doming or pad printing — our graphic studio can retouch or vectorise your logo. Suitable for companies, sports clubs, associations, events and private customers who need personalised trackers. Minimum order: 100 pieces (colours and sizes combined).
