Reference	2278
Composition	ABS
Material	ABS
Average weight	0.018
Dimensions	5 x 5 x 1,6CM
Country of origin	China
Carton	500 pieces

DESCRIPTION

Small heart-shaped reflective article designed to increase visibility for pedestrians and cyclists. Made from ABS, its compact dimensions (5 x 5 x 1.6 cm) and textured reflective surface efficiently return light while remaining lightweight and durable. Suitable for attaching to bags, outerwear or key rings and requires no special maintenance other than replacing the batteries when needed.

The Haert model features a rear clip for easy attachment and includes a small lamp with two lighting modes: steady and flashing. It runs on two replaceable LR44 batteries supplied with the item. Its low profile and slim volume make it convenient to carry and use without adding bulk.

Customisation is possible by pad printing, making this a practical personalised reflective article for companies, sports clubs, associations, events and private customers. Minimum order: 250 pieces (colours and sizes combined). Pad printing provides a clear mark on the smooth surface.
