DESCRIPTION

The Skarp folding knife features an acacia wood handle and a 6 cm stainless steel blade, designed for versatile everyday tasks. Its slim, tapered blade gives precise control for fine cutting, while the compact overall size (9.1 x 2.4 x 1.4 cm) makes it easy to carry in a pocket or tool kit. Care is straightforward: wipe the blade clean after use and keep the wooden handle dry to maintain its condition.

The wooden handle shows a smooth finish with visible rivets and a gentle curve for ergonomics; the metal-to-wood junction is neat and the blade folds fully into the handle for safe storage. The stainless steel construction helps limit corrosion when properly maintained.
