Reference	2299
Composition	ABS
Material	ABS
Average weight	0.195
Dimensions	9,8 x 9,8 x 4 CM
Country of origin	China
Carton	36 pieces

DESCRIPTION

The compact Luce alarm clock is made from recycled ABS and PET, designed for desk or bedside use. Its LED display shows the time and, in alarm mode only, the calendar year. The adjustable ambient light and small footprint (9.8 x 9.8 x 4 cm) make it unobtrusive yet practical; it runs on 3 AA batteries (not included). Available in 1 colour (white).

The rounded-square frame features a textile-front panel that softens the look while allowing the digital readout to shine through. Clean finishes and a matte outer shell ensure the clock sits securely on a desk or shelf without taking up much space.

Customisation is possible by digital printing, doming or pad printing, ideal for promotional items and as a personalised desk accessory for companies, associations, clubs and events. Minimum order: 18 pieces (colours and sizes combined); smaller quantities may be possible with additional fees.

COLOURS (1)

White
