Country of origin	China
Carton	12 pieces

DESCRIPTION

Double-wall insulated stainless steel tumbler made from recycled stainless steel, 1200 ml capacity, designed to maintain beverage temperature while on the move. The Suma model features an integrated handle for secure grip and a tall, tapered profile (14 x 25 cm) that fits many cup holders. The matte-like finish gives a comfortable hold and the stainless steel interior is hygienic and easy to clean. Suitable for regular indoor and outdoor use.

The clear lid accommodates a PE straw and closes to limit spills. Simple lines and visible joins around the handle indicate a sturdy construction designed for practical daily handling. Available in several colours — for example black, white and navy.

Customisation by laser engraving and pad printing is available; this tumbler suits businesses, sports clubs, associations, schools and event giveaways. Minimum order: 6 pieces (colours and sizes combined). Free quote within 24 hours on weekdays and our graphic studio can vectorise your logo.
