Material	Tritan
Average weight	0.118
Dimensions	Ø8 x 12CM
Country of origin	China
Carton	72 pieces

DESCRIPTION

Baby cup made of Tritan, designed unisex for infants and young children. With a 250 ml capacity and a clear body, it lets caregivers check contents at a glance while Tritan provides impact resistance for everyday use. The ergonomic shape and twin handles make it easy for small hands to grip; a flip-top lid protects the drinking spout when not in use. Simple to maintain: hand washing is recommended and the cup is designed for repeated use.

The cup includes volume markings for accurate dosing and a snap-on lid for secure closure. The handles are integrated into the rim for a steady grip and the unit disassembles for thorough cleaning. Dimensions Ø8 x 12 cm, capacity 250 ml, offered in several colours including Mint. Minimum order: 36 pieces (colours and sizes combined).

Customisation is available by pad printing, suitable for nurseries, schools, associations, events and corporate baby kits. Our artwork studio can retouch or vectorise your logo; free quote within 24 hours on weekdays. Practical choice for organisations and private customers seeking a personalised baby cup.
