Average weight	0.24
Dimensions	7,5 x 15,2 x 0,9CM
Country of origin	China
Carton	50 pieces

DESCRIPTION

The Powerflat8C personalised powerbank is a very slim aluminium unit made from recycled material, offering a clean, durable finish. With an 8,000 mAh capacity it is suited to charging a smartphone; output is DC5V/2A. Compact dimensions (7.5 x 15.2 x 0.9 cm) make it pocket- and bag-friendly. A USB Type-C charging cable is included and the device features USB-A and USB-C ports for in/out connections.

The metal casing provides a smooth, uniform surface ideal for branding. Its flat profile and rounded edges make the powerbank easy to handle, while the accessible ports simplify everyday use. Available in several colour options, for example Black, Matte Silver and Royal Blue.

This personalised powerbank can be marked by laser engraving, pad printing (tampography) or digital printing (DTF printing) depending on the desired finish. Suitable for companies, events, clubs and associations. Minimum order: 25 pieces (colours combined); our graphic studio can vectorise or retouch your logo for printing.
