Reference	2402
Composition	Recycled Cotton
Material	Recycled Cotton
Average weight	0.067
Dimensions	37 x 41CM
Country of origin	China
Carton	200 pieces

DESCRIPTION

This drawstring bag is made from 70% recycled cotton and 30% RPET and measures 37x41 cm, ideal for everyday use: storing light items, handing out at events or carrying club equipment. The 140 g/m² fabric provides a natural feel and breathable structure. Note: the article may shrink after printing.

The bag features a drawcord closure that doubles as shoulder straps, simple seams and a rectangular shape that makes packing straightforward. Lightweight and foldable, it is practical where compact storage matters. Available in several colours, including black, blue and khaki.

Customisable using transfer, flex, screen printing and DTF printing. Suited to companies, sports clubs, associations, schools, events and private customers. Minimum order: 100 pieces (colours combined). Our design studio can retouch or vectorise your logo to prepare it for printing.
