Composition	Paper
Material	Paper
Average weight	0.008
Dimensions	4.3 x 4.3 x 4.5 CM
Country of origin	Netherlands
Carton	384 pieces

DESCRIPTION

This biodegradable peat pot with mint seeds, the Mint Kit, is a compact gardening item designed for easy seed starting. Made in the EU from paper and peat, its small dimensions (4.3 x 4.3 x 4.5 cm) make it suitable for a windowsill or as a giveaway at events. The natural finish keeps handling and basic care straightforward.

The included soil pellet simplifies the process: moisten the pellet, sow the seeds and maintain regular watering. The biodegradable pot can be planted directly into the ground without disturbing the roots, and the kit is lightweight for storage and distribution.

These personalised gardening items can be customised using digital printing, laser engraving or pad printing, depending on the desired look. Well suited to businesses, clubs, associations, schools, events and private customers seeking an eco-friendly promotional product. Minimum order: 192 pieces (colours and sizes combined).

COLOURS (1)

Beige
