Carton	200 pieces

DESCRIPTION

The Fuegor fire starter is a compact outdoor accessory (11.9 x 1.8 cm) featuring a stainless steel ignition rod and a tapered wooden handle for a secure grip. It includes a versatile striker, a bottle opener, a ruler and a hex key, all linked by a cord. Lightweight and easy to carry, it is practical for hiking, camping and club outings and requires no special maintenance.

The design pairs durable stainless steel with a wooden handle for comfortable handling; the included tools add useful functions (opening, measuring, adjustment) on the go. Its compact dimensions make it easy to store and use in the field.

Customisation is available by laser engraving and pad printing, making this a personalised fire starter well suited to companies, sports clubs, associations, events and private customers. Minimum order: 100 pieces (colours and sizes combined) — smaller quantities can be supplied with additional fees. A free quote and a graphic studio are available to prepare your logo.
