Reference	2423
Composition	Recycled Stainless Steel
Material	Recycled Stainless Steel
Average weight	0.113
Dimensions	Ø8 x 9CM
Country of origin	China
Carton	80 pieces

DESCRIPTION

Single-wall stainless steel tumbler made from recycled stainless steel, 260 ml capacity and compact Ø8 x 9 cm dimensions. Unisex design with a removable acacia wood sleeve for improved grip and reduced heat transfer — as a single-wall tumbler, some heat transmission may occur. Supplied with a leak-resistant lid with direct opening and a stainless steel straw; simple cleaning with soapy water is recommended.

The tumbler is offered in several colours, for example Black, White and Matte Silver, and features a short, straight profile suitable for coffee breaks and cold or warm drinks. The photo shows smooth rim finishing and a clean attachment of the wooden sleeve.

Customisation available by laser engraving and pad printing. Suited to companies, sports clubs, associations, event organisers and individuals seeking a personalised tumbler — minimum order 40 pieces (colours and sizes combined). Free quote within 24 hours on weekdays; our studio can retouch or vectorise your logo.
