Country of origin	China
Carton	80 pieces

DESCRIPTION

The Neuz wireless charger is a compact, round charger combining a walnut-effect top with a recycled aluminium base for a clean, modern look. At 10 cm diameter and a very slim profile, it fits neatly on a desk or bedside table. Its DC 9V/1.67A (15W) output supports standard wireless charging for most compatible smartphones. Use is straightforward: connect the cable to a USB port and place your device on the wooden surface to begin charging.

The recycled aluminium rim frames the wooden pad, providing a sturdy feel and refined finish. The cable is fixed to the base for a reliable connection; the unit should be wiped with a soft, dry cloth for maintenance. Available in several colour variants, including wood tones, its compact form makes it suitable for corporate gifting and events as well as everyday use.

This personalised wireless charger can be customised by DTF printing, laser engraving or pad printing, and suits businesses, clubs, associations and promotional events. Minimum order: 40 pieces (colours and sizes combined) — smaller quantities may be possible with additional charges. Free quote within 24 hours on weekdays; our artwork studio can prepare or vectorise your logo.
